Subject Index*

A

- Acceleration-force values, I-J, systolic, of 51 normal male subjects from ultralow-frequency pendulum ballistocardiographic system (Hollis), 730
systolic I-J stroke, of 49 male subjects from roller ball-bearing ballistocardiographic bed, observations on (Hollis), 738
- Acenocoumarin (Sintrom) and other coumarin derivatives, clinical experience with; anticoagulant therapy (Desrochers, et al.), 321
- Acetyl strophanthidin sensitivity in dogs with congestive heart failure (Bliss and Adolph), 886
- Activation, spread of, and QRS complex of heart's diaphragmatic surface, their value in study of; diaphragmatic juxtacardiac leads (Barbato, et al.), 263
- Adams-Stokes syndrome during normal sinus rhythm and transient heart block.
I. Effects of Isuprel on patients with Adams-Stokes syndrome during normal sinus rhythm and transient heart block (Schwartz and Schwartz), 849
- Amyl nitrite, use of, in differentiation of Fallot's tetralogy and pulmonary stenosis with intact ventricular septum (Vogelpoel, et al.), 803
- Aneurysm, dissecting, of coronary artery producing myomalacia and death (Iglauer, et al.), 630
ventricular, electrocardiographic and spatial vectorcardiographic pattern associated with diffuse myocardial damage and (Burch, et al.), 762
hemorrhagic pericardial effusion following myocardial infarction associated with (Greenfield and Dillon), 327
- Angina and congestive failure, relief of, by Hufnagel valve: subsequent term pregnancy (Crockett, et al.), 144
pectoris, experimental production of certain features of (Prinzmetal, et al.), 534
II. Observations on classic form of angina pectoris (preliminary report) (Prinzmetal, et al.), 530
- Angiocardiography: architectural basis of cardiac function (Soloff), 799
- Announcements, 160, 320, 477, 638, 798, 945
- Anticoagulant therapy: clinical experience with acenocoumarin (Sintrom) and other coumarin derivatives (Desrochers, et al.), 321
- Aorta, hypoplasia of: report of case (Pyörälä, et al.), 289
postural hypotension following dorsal sympathectomy in coarctation of: correction by resection of coarctation (Evans, et al.), 926
- Aortic media, configuration of elastic tissue of, in aortic coarctation (Heath and Edwards), 29
- Apical diastolic murmurs, phonocardiographic study of, in pure mitral insufficiency (Hubbard, et al.), 223
- Arrhythmias, cardiac, observations in (Part II); clinical evaluation of new esophageal electrode, with particular reference to bipolar esophageal electrocardiogram (Copeland, et al.), 874
- Arterial, venous and, catheterization, combined catheterization of heart utilizing modified transbronchial technique, percutaneous left ventricular puncture, and (Davila, et al.), 514
- Arteriosclerosis, myocardial infarct-like lesions and, induced by high molecular substances, and prevention by magnesium salt (Shimamoto, et al.), 273
- Artery, coronary, dissecting aneurysm of, producing myomalacia and death (Iglauer, et al.), 630
left, anomalous, arising from pulmonary artery (Kuzman, et al.), 36
- Asian influenza, electrocardiographic studies in (Gibson, et al.), 661
- Atherogenic regimen, serum cholesterol and lipid phosphorus in dogs on (Blake and Meng), 392
- Atrial abnormalities, electrocardiographic effects of (Abildskov), 934
special techniques and analysis applied to detection of (Abildskov), 937
complex, factors which influence (Abildskov), 931
of electrocardiogram (Abildskov), 930
parasystole (Scherf, et al.), 507
septal defect, rheumatic heart disease associated with: clinical and pathologic study of 12 cases of Lutembacher's syndrome (Espino-Vela), 185
- Atrioventricular dissociation, complete, idioventricular parasystole with exit block in subject with (Rossi, et al.), 775

*January, pp. 1-160; February, pp. 161-320; March, pp. 321-478; April, pp. 479-638; May, pp. 639-798; June, pp. 799-964.

- Atrium, left, persistent left superior vena cava draining into, as isolated anomaly (Davis, et al.), 616
- Auricular infarction (Freundlich and Sereno), 654
- tachycardia, paroxysmal, related to phases of respiration (Berry), 782
- Author-publisher-printer complex, 320 (B. Rev.)
- Autonomic stimulation, strong, reflex venoconstrictor response to (Ross, et al.), 418
- Axis, electrical, of QRS complex, simple device for measuring time intervals in electrocardiogram and for determining (Keuskamp), 389
- mean ventricular, in congenital heart disease: study considering natural incidence of malformations (Martins de Oliveira, et al.), 820

B

- Ballistocardiographic bed, roller ball-bearing, observations on systolic I-J stroke acceleration-force values of 49 male subjects from (Hollis), 738
- system, ultralow-frequency pendulum, systolic I-J acceleration-force values of 51 normal male subjects from (Hollis), 730
- Bed, ballistocardiographic, roller ball-bearing, observations on systolic I-J stroke acceleration-force values of 49 male subjects from (Hollis), 738
- Bipolar esophageal electrocardiogram, clinical evaluation of new esophageal electrode, with particular reference to. Part I. Normal sinus mechanism (Copeland, et al.), 862
- Part II. Observations in cardiac arrhythmias (Copeland, et al.), 874
- Block, bundle branch, left, vectorcardiographic analysis of left ventricular strain pattern comparatively studied with ST-T change of, and ventricular premature beat of right ventricular origin (Nimura), 552
- heart, transient, Adams-Stokes syndrome during normal sinus rhythm and. I. Effects of Isuprel on patients with Adams-Stokes syndrome during normal sinus rhythm and transient heart block (Schwartz and Schwartz), 849
- Blockade, ganglionic, effect of, on venous pressure and blood volume: further evidence in favor of increased venomotor tone in congestive heart failure (Lewis, et al.), 897
- Blood pressure, effect of pentolinium tartrate (Ansolsen) on, in terminal vessels and on capillary diameter (Davis, et al.), 747
- velocity and flow, Pitot-static method for computation of; preliminary report (Breme and Rao), 77
- Blood pressure—Cont'd
- volume, effect of ganglionic blockade on venous pressure and: further evidence in favor of increased venomotor tone in congestive heart failure (Lewis, et al.), 897
- Bluttransfusions forschung, Ergebnisse der, 796 (B. Rev.)
- Book reviews, 160, 320, 477, 795, 943
- Bulboventricular loop, ventricles, and great vessels, normal development of (de la Cruz, et al.), 104
- Bundle branch block, importance of septal activation in electrogenesis of unipolar morphologies in: experimental study with total extirpation of free ventricular wall of blocked ventricle (Medrano, et al.), 126
- left, T loop in (Nimura), 562
- vectorcardiographic analysis of left ventricular strain pattern comparatively studied with, and ventricular premature beat of right ventricular origin (Nimura), 552
- Bürger's concept, clinical value of, as applied in Frank's lead system (Sano, et al.), 606

C

- Calcium acetate, sensitization by dihydrotachysterol (DHT) and, for induction of cardiac lesions by various agents (Selye, et al.), 88
- Camel, some hemodynamic observations on (Braun, et al.), 94
- Capillary diameter, effect of pentolinium tartrate (Ansolsen) on blood pressure in terminal vessels and on (Davis, et al.), 747
- Cardiac activation, theoretical basis of unipolar morphologies and its correlation with vectorial analysis, with, and with potential variations at epicardial surface of heart; importance of unipolar morphologies in interpretation of electrocardiogram (Sodi-Pallares, et al.), 590
- arrest and resuscitation, 796 (B. Rev.)
- arrhythmias, observations in (Part II); clinical evaluation of new esophageal electrode, with particular reference to bipolar esophageal electrocardiogram (Copeland, et al.), 874
- efficiency, measurement of (Bruce), 161
- function, architectural basis of; angiocardiology (Soloff), 799
- lesions, sensitization by dihydrotachysterol (DHT) and calcium acetate for induction of, by various agents (Selye, et al.), 88
- necrosis, chemical prevention of 795 (B. Rev.)
- vectors in frontal plane, further study of (Zao, et al.), 66

- Cardiology for nurses, handbook of, 943 (B. Rev.)
fundamentals in, 795 (B. Rev.)
- Cardiopathy, myxedema, postoperative: unusual instance which developed in immediate postoperative period. Case report and review of literature (Hoffman), 463
- Catheterization, venous and arterial, combined catheterization of heart utilizing modified transbronchial technique, percutaneous left ventricular puncture, and (Davila, et al.), 514
- Cerebral vascular diseases, transactions of Second Conference on, 797 (B. Rev.)
- Cholesterol, serum, and lipid phosphorus in dogs on atherogenic regimen (Blake and Meng), 392
- Circulation, digital (Mendlowitz), 309
of man, effects of "dry" heat on. II. Splanchnic hemodynamics (Traks and Sancetta), 438
- Clicks, systolic: Clinical, phonocardiographic, and hemodynamic evaluation (Minhas and Gasul), 49
- Coarctation, aortic, configuration of elastic tissue of aortic media in (Heath and Edwards), 29
of aorta, postural hypotension following dorsal sympathectomy in: correction by resection of coarctation (Evans, et al.), 926
- Conduction, ventricular, aberrant, esophageal lead in diagnosis of tachycardias with (Rubin, et al.), 19
- Congestive failure, relief of angina and, by Hufnagel valve: subsequent term pregnancy (Crockett, et al.), 144
heart failure, acetyl strophanthidin sensitivity in dogs with (Bliss and Adolph), 886
and hypertension, effects of Su-5879 (Esidrix) in: clinical evaluation (Hejtmancik, et al.), 490
further evidence in favor of increased venomotor tone in; effect of ganglionic blockade on venous pressure and blood volume (Lewis, et al.), 897
- Coronary artery, dissecting aneurysm of, producing myomalacia and death (Iglauer, et al.), 630
left, anomalous, arising from pulmonary artery (Kuzman, et al.), 36
heart disease, clinical observations on, in epidemiological population studies (White), 203
- Coumarin derivatives, other, clinical experience with acenocoumarin (Sintrom) and; anticoagulant therapy (Desrochers, et al.), 321
- D
- Deformable tube, stenosis in, inhibited by outlet pressure (Rodbard and Harasawa), 544
- Deformities, heart, congenital, postpericardiotomy syndrome in (Johnson), 643
- Depolarization, atrial, heart-lead relationships pertaining to (Brody and Copeland), 7
ventricular, heart-lead relationships pertaining to (Brody and Copeland), 5
- Dextrocardia with transposition of cavities and situs inversus (Portillo, et al.), 397
- Dextrocardias, levocardias, dextropositions, and dextrorotations, importance of unipolar leads in diagnosis of (Portillo, et al.), 396
- Dextroposition (Portillo, et al.), 415
- Dextropositions, levocardias, dextrocardias, and dextrorotations, importance of unipolar leads in diagnosis of (Portillo, et al.), 396
- Dextrorotation (Portillo, et al.), 410
- Dextrorotations, importance of unipolar leads in diagnosis of dextrocardias, levocardias, dextropositions, and (Portillo, et al.), 396
- Diaphragmatic juxtacardiac leads: their value in study of spread of activation and QRS complex of heart's diaphragmatic surface (Barbato, et al.), 263
- Diastolic murmurs, apical, phonocardiographic study of, in pure mitral insufficiency (Hubbard, et al.), 223
- Digital circulation (Mendlowitz), 309
- Digitalis sensitivity, factors involved in, in chronic pulmonary insufficiency (Baum, et al.), 460
- Digoxin, clinical experiences with (Soloff and Zatuchni), 674
- Dihydrotachysterol (DHT) and calcium acetate, sensitization by, for induction of cardiac lesions by various agents (Selye, et al.), 88
- Dimensional gauges, applications of electrokymography based on comparison with records from, in situ (Greer, et al.), 430
- Dissociation, atrioventricular, complete, idioventricular parasystole with exit block in subject with (Rossi, et al.), 775
interference, and fusion, potential, zones of: with observations on contour of retrograde P waves (Bix and Marriott), 423
- Diuretic agent, flumethiazide, clinical pharmacology of (Montero, et al.), 484
- Dog, focal application of hypertonic solutions of sodium chloride on impulse formation in heart of (Scherf, et al.), 383
- Dorsal sympathectomy, postural hypotension following, in coarctation of aorta: correction by resection of coarctation (Evans, et al.), 926
- "Dry" heat, effects of, on circulation of man. II. Splanchnic hemodynamics (Traks and Sancetta), 438
- Dynamics, spherical, of heart (myocardial tension, oxygen consumption, coronary blood flow and efficiency) (Rodbard, et al.), 348

E

- Ebstein's malformation, clinical and physiologic studies in (Livesay), 701
- Ectopia cordis, extrathoracic: report of cases and review of literature (Millhouse and Joos), 470
- Editorial (Burch), 1
- Angiocardiology: architectural basis of cardiac function (Soloff), 799
- Measurement of cardiac efficiency (Bruce), 161
- Myocarditis (Saphir), 639
- Efficiency, cardiac, measurement of (Bruce), 161
- Effusion, pericardial, bedside diagnosis of (Korns), 479
- hemorrhagic, following myocardial infarction associated with ventricular aneurysm (Greenfield and Dillon), 327
- Electrical axis of QRS complex, simple device for measuring time intervals in electrocardiogram and for determining (Keuskamp), 389
- potentials, transmembrane, in ventricular tachycardia and fibrillation (Hogancamp, et al.), 214
- Electrocardiogram, atrial complex of (Abildskov), 930
- epicardial, direct, in human angina pectoris (Prinzmetal, et al.), 531
- esophageal, bipolar, clinical evaluation of new esophageal electrode, with particular reference to. Part I. Normal sinus mechanism (Copeland, et al.), 862
- Part II. Observations in cardiac arrhythmias (Copeland, et al.), 874
- importance of unipolar leads in interpretation of (Sodi-Pallares, et al.), 600
- morphologies in interpretation of: theoretical basis of unipolar morphologies and its correlation with vectorial analysis, with cardiac activation, and with potential variations at epicardial surface of heart (Sodi-Pallares, et al.), 590
- simple device for measuring time intervals in, and for determining electrical axis of QRS complex (Keuskamp), 389
- Electrocardiographic and spatial vectorcardiographic pattern associated with diffuse myocardial damage and ventricular aneurysm (Burch, et al.), 762
- clinical and, study; paroxysmal ventricular tachycardia (Herrmann, et al.), 166
- effects of atrial abnormalities (Abildskov), 934
- hypocalcemic, abnormalities in diseases of liver (Spodick), 118
- pattern, abnormal, and its relation to ventricular fibrillation (observations during clinical and experimental hypothermia) (Boba), 255
- studies in Asian influenza (Gibson, et al.), 661
- Electrocardiography, 945 (B. Rev.)
- advances in, 160 (B. Rev.)
- biophysical principles of, 797 (B. Rev.)
- esophageal, principles of (Brody and Copeland), 3
- Electrode, esophageal, new, clinical evaluation of, with particular reference to bipolar esophageal electrocardiogram. Part I. Normal sinus mechanism (Copeland, et al.), 862
- Part II. Observations in cardiac arrhythmias (Copeland, et al.), 874
- Electrogenesis of unipolar morphologies in bundle branch block, importance of septal activation in: experimental study with total extirpation of free ventricular wall of blocked ventricle (Medrano, et al.), 126
- Electrographic study of right ventricular hypertrophy in pulmonic stenosis (Brusca, et al.), 134
- Electrokymography, applications of, based on comparison with records from dimensional gauges in situ (Greer, et al.), 430
- Embolism, paradoxical and knotted (Zettner), 921
- Embryologic explanation for corrected transposition of great vessels: additional description of main anatomic features of this malformation and its varieties (de la Cruz, et al.), 104
- Endocardial fibroelastosis, right-sided, tricuspid stenosis in association with right ventricular hypertrophy and coexistence of (Abdin and Abdin), 98
- Enzymes, serum, determinations of, in surgical patients: value in diagnosis of complicating myocardial infarction (Weisberg and Sampson), 240
- Epicardial electrocardiogram, direct, in human angina pectoris (Prinzmetal, et al.), 531
- potentials, direct, in right ventricular preponderance (Wasserburger, et al.), 578
- surface of exposed human heart, direct recording of heart sounds and murmurs from (Magri, et al.), 449
- of heart, potential variations at, theoretical basis of unipolar morphologies and its correlation with vectorial analysis, with cardiac activation, and with; importance of unipolar morphologies in interpretation of electrocardiogram (Sodi-Pallares, et al.), 590
- Epidemiological investigations abroad: coronary heart disease (White), 207
- population studies, clinical observations on coronary heart disease in (White), 203
- Esophageal electrocardiography, principles of (Brody and Copeland), 3
- electrode, new, clinical evaluation of, with particular reference to bipolar esophageal electrocardiogram. Part I. Normal sinus mechanism (Copeland, et al.), 862

Esophageal electrocardiography—Cont'd

Part II. Observations in cardiac arrhythmias (Copeland, et al.), 874

lead, bipolar, some special properties of (Brody and Copeland), 10

in diagnosis of tachycardias with aberrant ventricular conduction (Rubin, et al.), 19

Exit block, idioventricular parasystole with, in subject with complete atrioventricular dissociation (Rossi, et al.), 775

Extrathoracic ectopia cordis: report of cases and review of literature (Millhouse and Joos), 470

F

Failure, congestive, relief of angina and, by Hufnagel valve: Subsequent term pregnancy (Crockett, et al.) 144

heart, congestive, and hypertension, effects of Su-5879 (Esidrix) in: clinical evaluation (Hejtmancik, et al.), 490

Fallot's tetralogy and pulmonary stenosis with intact ventricular septum, use of amyl nitrite in differentiation of (Vogel-poel, et al.), 803

Fibrillation, tachycardia and, ventricular, transmembrane electrical potentials in (Hogancamp, et al.), 214

ventricular, abnormal electrocardiographic pattern and its relation to, (observations during clinical and experimental hypothermia) (Boba), 255

Fibroelastosis, endocardial, right-sided, tricuspid stenosis in association with right ventricular hypertrophy and coexistence of (Abdin and Abdin), 98

Flow, velocity and, blood, Pitot-static method for computation of, preliminary report (Breme and Rao), 77

Flumethiazide, diuretic agent, clinical pharmacology of (Montero, et al.), 484

Frank's lead system, clinical value of Burger's concept as applied in (Sano, et al.), 606

Frontal plane, further study of cardiac vectors in (Zao, et al.), 66

Fusion, zones of potential interference, dissociation and: with observations on contour of retrograde P waves (Bix and Marriott), 423

G

Ganglionic blockade, effect of, on venous pressure and blood volume: further evidence in favor of increased venomotor tone in congestive heart failure (Lewis, et al.), 897

Gauges, dimensional, applications of electrokymography based on comparison with records from, in situ (Greer, et al.), 430

Great vessels, corrected transposition of (de la Cruz, et al.), 112

embryologic explanation for corrected transposition of: additional description of main anatomic features of this malformation and its varieties (de la Cruz, et al.), 104

H

Heart, antemortem diagnosis of metastatic sarcoma to: case report (Frohlich, et al.), 623

block, transient, Adams-Stokes syndrome during normal sinus rhythm and. I. Effects of Isuprel on patients with Adams-Stokes syndrome during normal sinus rhythm and transient heart block (Schwartz and Schwartz), 849

combined catheterization of, utilizing modified transbronchial technique, percutaneous left ventricular puncture, and venous and arterial catheterization (Davila, et al.), 514

deformities, congenital, postpericardiotomy syndrome in (Johnson), 643

disease, congenital, mean ventricular axis in: study considering natural incidence of malformations (Martins de Oliveira, et al.), 820

coronary, clinical observations on, in epidemiological population studies (White), 203

etiological factors concerned with causation of, in Turkey (Vural, et al.), 333

rheumatic, associated with atrial septal defect: clinical and pathologic study of 12 cases of Lutembacher's syndrome (Espino-Vela), 185

failure, congestive, acetyl strophanthidin sensitivity in dogs with (Bliss and Adolph), 886

and hypertension, effects of Su-5879 (Esidrix) in: clinical evaluation (Hejtmancik, et al.), 490

further evidence in favor of increased venomotor tone in; effect of ganglionic blockade on venous pressure and blood volume (Lewis, et al.), 897

human, exposed, direct recording of heart sounds and murmurs from epicardial surface of (Magri, et al.), 449

of dog, focal application of hypertonic solutions of sodium chloride on impulse formation in (Scherf, et al.), 383

potential variations at epicardial surface of, theoretical basis of unipolar morphologies and its correlation with vectorial analysis, with cardiac activation, and with; importance of unipolar morphologies in interpretation of electrocardiogram (Sodi-Pallares, et al.), 590

primary tumor of: report of case with myxofibroma of right ventricle (Kishimoto and Sakaibori), 769

right, recatheterization of, in ventricular septal defect (Downing) 669

Heart—Cont'd

- sounds and murmurs, direct recording of, from epicardial surface of exposed human heart (Magri, et al.), 449
- spherical dynamics of (myocardial tension, oxygen consumption, coronary blood flow and efficiency) (Rodbard, et al.), 348
- Heart-power, your, you can increase, 944 (B. Rev.)
- Heat, "dry," effects of, on circulation of man. II. Splanchnic hemodynamics (Traks and Sancetta), 438
- Hemodynamic observations on camel (Braun, et al.), 94
 - studies in acute myocardial infarction (Broch, et al.), 522
- Hemodynamics, splanchnic (II); effects of "dry" heat on circulation of man (Traks and Sancetta), 438
- Hepatic pulsations, coupled, in tricuspid incompetence (new physical sign) (Terry), 158
- High molecular substances, myocardial infarct-like lesions and arteriosclerosis induced by, and prevention by magnesium salt (Shimamoto, et al.), 273
- Hufnagel valve, relief of angina and congestive failure by: subsequent term pregnancy (Crockett, et al.), 144
- Human heart, exposed, direct recording of heart sounds and murmurs from epicardial surface of (Magri, et al.), 449
- Hyaluronidase, intravenous injection of, in acute myocardial infarction: preliminary report of clinical and experimental observations (Martins de Oliveira, et al.), 712
- Hypertension, effects of Su-5879 (Esidrix) in congestive heart failure and: clinical evaluation (Hejtmancik, et al.), 490
 - essential, prognosis in (Mathisen, et al.), 371
- Hypertonic solutions of sodium chloride, focal application of, on impulse formation in heart of dog (Scherf, et al.), 383
- Hypertrophy, ventricular, left, digitalis effect in; cardiac vectors in frontal plane (Zao, et al.), 71
 - right, electrographic study of, in pulmonic stenosis (Brusca, et al.), 134
 - tricuspid stenosis in association with, and coexistence of right-sided endocardial fibroelastosis (Abdin and Abdin), 98
- Hypocalcemic electrocardiographic abnormalities in diseases of liver (Spodick), 118
- Hypoplasia of aorta: report of case (Pyörälä, et al.), 289
- Hypotension, postural, following dorsal sympathectomy in coarctation of aorta: correction by resection of coarctation (Evans, et al.), 926
- Hypoxia, passivity of pulmonary vasculature in (Rodbard and Harasawa), 232

I

- Idioventricular parasystole with exit block in subject with complete atrioventricular dissociation (Rossi, et al.), 775

- I-J acceleration-force, systolic, values of 51 normal male subjects from ultralow-frequency pendulum ballistocardiographic system (Hollis), 730
- stroke, systolic, acceleration-force values of 49 male subjects from roller ball-bearing ballistocardiographic bed, observations on (Hollis), 738
- Impulse formation, focal application of hypertonic solutions of sodium chloride on, in heart of dog (Scherf, et al.), 383
- Incompetence, tricuspid, coupled hepatic pulsations in (new physical sign), 158
- Infarction, auricular (Freundlich and Sereno), 654
 - myocardial, acute, hemodynamic studies in (Broch, et al.), 522
 - intravenous injection of hyaluronidase in (Martins de Oliveira et al.), 712
 - anterior, old; cardiac vectors in frontal plane (Zao, et al.), 68
 - associated with ventricular aneurysm, hemorrhagic pericardial effusion following (Greenfield and Dillon), 327
 - complicating, value in diagnosis of; determinations of serum enzymes in surgical patients (Weisberg and Sampson), 240
 - flare-up of pericarditis complicating, after two years of steroid therapy (Dresler), 501
 - posterior, old; cardiac vectors in frontal plane (Zao, et al.), 69
- Influenza, Asian, electrocardiographic studies in (Gibson, et al.), 661
- Infundibular stenosis, isolated (Blount, et al.), 684
- Insufficiency, mitral, pure, phonocardiographic study of apical diastolic murmurs in (Hubbard, et al.), 223
 - pulmonary, chronic, factors involved in digitalis sensitivity in (Baum, et al.), 460
- Interference, dissociation, and fusion, potential, zones of: with observations on contour of retrograde P waves (Bix and Marriott), 423
- Isuprel, effects of, on patients with Adams-Stokes syndrome during normal sinus rhythm and transient heart block (I); Adams-Stokes syndrome during normal sinus rhythm and transient heart block (Schwartz and Schwartz), 849

J

- Juxtacardiac leads, diaphragmatic: their value in study of spread of activation and QRS complex of heart's diaphragmatic surface (Barbato, et al.) 263

K

- Kinetocardiographic tracings as aid in differentiation of three-sound rhythms (Jeffries), 904
- Knotted embolism, paradoxical and (Zettner), 921

Korotkoff sounds, graphic recording of (Geddes, et al.), 361

L

Lead, esophageal, in diagnosis of tachycardias with aberrant ventricular conduction (Rubin, et al.), 19
system, Frank's clinical value of Burger's concept as applied in (Sano, et al.), 606
vectorcardiographic, system, new (Wenger and Hupka), 340

Leads, juxtacardiac, diaphragmatic: their value in study of spread of activation and QRS complex of heart's diaphragmatic surface (Barbato, et al.), 263
mathematical methods for analyzing (Helm), 149
unipolar, importance of, in interpretation of electrocardiogram (Sodi-Pallares, et al.), 600

Lesions, cardiac, sensitization by dihydrotachysterol (DHT) and calcium acetate for induction of, by various agents (Selye, et al.), 88
myocardial infarct-like, and arteriosclerosis induced by high molecular substances, and prevention by magnesium salt (Shimamoto, et al.), 273

Letter to editor, 942

Levocardia (Portillo, et al.), 416

Levocardias, dextropositions, dextrocardias, and dextrorotations, importance of unipolar leads in diagnosis of (Portillo, et al.), 396

Lipid phosphorus, serum cholesterol and, in dogs on atherogenic regimen (Blake and Meng), 392

Liver, hypocalcemic electrocardiographic abnormalities in diseases of (Spodick), 118

Lutembacher's syndrome, clinical and pathologic study of 12 cases of; rheumatic heart disease associated with atrial septal defect (Espino-Vela), 185

M

Magnesium salt, myocardial infarct-like lesions and arteriosclerosis induced by high molecular substances and prevention by (Shimamoto, et al.), 273

Malformation, Ebstein's, clinical and physiologic studies in (Livesay), 701

Malignant neoplasms, spatial vectorcardiogram of patients with (Golden, et al.), 751

Mathematical methods for analyzing leads (Helm), 149

Metastatic sarcoma to heart, antemortem diagnosis of: case report (Frohlich, et al.), 623

Mitral insufficiency, pure, phonocardiographic study of apical diastolic murmurs in (Hubbard, et al.), 223

Morphologies, unipolar, importance of, in interpretation of electrocardiogram: theoretical basis of unipolar morphologies and its correlation with vectorial analysis, with cardiac activation, and with potential variations at epicardial surface of heart (Sodi-Pallares, et al.), 590

Murmurs, diastolic, apical, phonocardiographic study of, in pure mitral insufficiency (Hubbard, et al.), 223

heart sounds and, direct recording of, from epicardial surface of exposed human heart (Magri, et al.), 449

Muscular dystrophy, progressive, myocardial disease associated with (report of 2 cases) (Lisan, et al.), 913

Myocardial damage, diffuse, and ventricular aneurysm, electrocardiographic and spatial vectorcardiographic pattern associated with (Burch, et al.), 762, 913

disease associated with progressive muscular dystrophy (report of 2 cases) (Lisan, et al.), 913

infarction, acute, hemodynamic studies in (Broch, et al.), 522

intravenous injection of hyaluronidase in: preliminary report of clinical and experimental observations (Martins de Oliveira, et al.), 712

associated with ventricular aneurysm, hemorrhagic pericardial effusion following (Greenfield and Dillon), 327

complicating, value in diagnosis of; determinations of serum enzymes in surgical patients (Weisberg and Sampson), 240

flare-up of pericarditis complicating, after two years of steroid therapy (Dressler), 501

infarct-like lesions and arteriosclerosis induced by high molecular substances, and prevention by magnesium salt (Shimamoto, et al.), 273

Myocarditis (Saphir), 639

of unknown etiology, recurrent ventricular tachycardia as chief manifestation of (Herman, et al.), 829

Myomalacia and death, dissecting aneurysm of coronary artery producing (Iglauer, et al.), 630

Myxedema cardiopathy, postoperative: unusual instance which developed in immediate postoperative period. Case report and review of literature (Hoffman), 463

Myxofibroma of right ventricle, report of case with; primary tumor of heart (Kishimoto and Sakaibori), 769

N

Necrosis, cardiac, chemical prevention of, 795 (B. Rev.)

Neoplasms, malignant, spatial vectorcardiogram of patients with (Golden, et al.), 751

O

- Output of volume, work, and power by right and left ventricles of man at rest in bed, study of influence of tropical weather on (Burch and Hyman), 247

P

- P waves, retrograde, with observations on contour of; zones of potential interference, dissociation, and fusion (Bix and Marriott), 423
- Paradoxical and knotted embolism (Zettner), 921
- Parasystole, atrial (Scherf, et al.), 507
- idioventricular, with exit block in subject with complete atrioventricular dissociation (Rossi, et al.), 775
- Paroxysmal auricular tachycardia related to phases of respiration (Berry), 782
- ventricular tachycardia: clinical and electrocardiographic study (Herrmann, et al.), 166
- Pattern, electrocardiographic, abnormal, and its relation to ventricular fibrillation (observations during clinical and experimental hypothermia) (Boba), 255
- Pericardial effusion, bedside diagnosis of (Korns), 479
- hemorrhagic, following myocardial infarction associated with ventricular aneurysm (Greenfield and Dillon), 327
- physical signs of (Korns), 480
- Pericarditis, acute; cardiac vectors in frontal plane (Zao, et al.), 70
- flare-up of, complicating myocardial infarction after two years of steroid therapy (Dressler), 501
- Pendulum, ultralow-frequency, ballistocardiographic system, systolic I-J acceleration-force values of 51 normal male subjects from (Hollis), 730
- Pentolinium tartrate (Ansolsen), effect of, on blood pressure in terminal vessels and on capillary diameter (Davis, et al.), 747
- Phase-inhomogeneities, role of, in esophageal electrocardiography (Brody and Copeland), 12
- Phonocardiographic study of apical diastolic murmurs in pure mitral insufficiency (Hubbard), 223
- Phosphorus, lipid, serum cholesterol and, in dogs on atherogenic regimen (Blake and Meng), 392
- Pitot-static method for computation of blood velocity and flow; preliminary report (Breme and Rao), 77
- Plane, frontal, further study of cardiac vectors in (Zao, et al.), 66
- Population studies, epidemiological, clinical observations on coronary heart disease in (White), 203
- Postpericardiotomy syndrome in congenital heart deformities (Johnson), 643

- Postural hypotension following dorsal sympathectomy in coarctation of aorta: correction by resection of coarctation (Evans, et al.), 926
- Potential variations at epicardial surface of heart, theoretical basis of unipolar morphologies and its correlation with vectorial analysis, with cardiac activation, and with; importance of unipolar morphologies in interpretation of electrocardiogram (Sodi-Pallares, et al.), 590
- Potentials, electrical, transmembrane, in ventricular tachycardia and fibrillation (Hogancamp, et al.), 214
- epicardial, direct, in right ventricular preponderance (Wasserburger, et al.), 578
- Pregnancy, term, subsequent; relief of angina and congestive failure by Hufnagel valve (Crockett, et al.), 144
- Premature beat, ventricular, of right ventricular origin, vectorcardiographic analysis of left ventricular strain pattern comparatively studied with ST-T change of left bundle branch block and (Nimura), 552
- Pressure, venous, and blood volume, effect of ganglionic blockade on: further evidence in favor of increased venomotor tone in congestive heart failure (Lewis, et al.), 897
- Pulmonary artery, anomalous left coronary artery arising from (Kuzman, et al.), 36
- insufficiency, chronic, factors involved in digitalis sensitivity in (Baum, et al.), 460
- stenosis with intact ventricular septum, use of amyl nitrite in differentiation of Fallot's tetralogy and (Vogelpoel, et al.), 803
- vasculature, passivity of, in hypoxia (Rodbard and Harasawa), 232
- Pulmonic stenosis, electrographic study of right ventricular hypertrophy in (Brusca, et al.), 134
- valvular regurgitation, congenital, isolated (Lendrum and Shaffer), 298
- Pulsations, hepatic, coupled, in tricuspid incompetence (new physical sign) (Terry), 158
- Pulseless disease (Takayasu's syndrome) (Misra, et al.), 177

Q

- QRS complex, simple device for measuring time intervals in electrocardiogram and for determining electrical axis of (Keuskamp), 389
- spread of activation and, of heart's diaphragmatic surface, their value in study of; diaphragmatic juxtacardiac leads (Barbato, et al.), 263

R

- Radioisotope in der Herzdiagnostik, 943 (B. Rev.)
- Recatheterization of right heart in ventricular septal defect (Downing), 669
- Reflex venoconstrictor response to strong autonomic stimulation (Ross, et al.), 418
- Regurgitation, valvular, pulmonic, congenital, isolated (Lendrum and Shaffer), 298
- Resection of coarctation, correction by; postural hypotension following dorsal sympathectomy in coarctation of aorta (Evans, et al.), 926
- Respiration, handbook of, 477 (B. Rev.)
paroxysmal auricular tachycardia related to phases of (Berry), 782
- Response, venoconstrictor, reflex, to strong autonomic stimulation (Ross, et al.), 418
- Resuscitation, cardiac arrest and, 796 (B. Rev.)
- Retrograde P waves, contour of (Bix and Marriott), 427
- Rheumatic heart disease associated with atrial septal defect: clinical and pathologic study of 12 cases of Lutembacher's syndrome (Espino-Vela), 185
- Rhythm, sinus, normal, and transient heart block, Adams-Stokes syndrome during. I. Effects of Isuprel on patients with Adams-Stokes syndrome during normal sinus rhythm and transient heart block (Schwartz and Schwartz), 849
- Rhythms, three-sound, kinetocardiographic tracings as aid in differentiation of (Jeffries), 904

S

- Sarcoma, metastatic, to heart, antemortem diagnosis of: case report (Frohlich, et al.), 623
- Septal activation, importance of, in electrogenesis of unipolar morphologies in bundle branch block: experimental study with total extirpation of free ventricular wall of blocked ventricle (Medrano, et al.), 126
- defect, atrial, rheumatic heart disease associated with: clinical and pathologic study of 12 cases of Lutembacher's syndrome (Espino-Vela), 185
- ventricular, recatheterization of right heart in (Downing), 669
- Septum, ventricular, intact, use of amyl nitrite in differentiation of Fallot's tetralogy and pulmonary stenosis with (Vogel-pool, et al.), 803
- Serum cholesterol and lipid phosphorus in dogs on atherogenic regimen (Blake and Meng), 392
- enzymes, determinations of, in surgical patients: value in diagnosis of complicating myocardial infarction (Weisberg and Sampson), 240

- Sinus mechanism, normal (Part I); clinical evaluation of new esophageal electrode, with particular reference to bipolar esophageal electrocardiogram (Copeland, et al.), 862
- results in, with new esophageal electrode (Copeland, et al.), 864
- rhythm, normal, and transient heart block, Adams-Stokes syndrome during. I. Effects of Isuprel on patients with Adams-Stokes syndrome during normal sinus rhythm and transient heart block (Schwartz and Schwartz), 849
- Situs inversus, dextrocardia with transposition of cavities and (Portillo, et al.), 397
- Sodium chloride, focal application of hypertonic solutions of, on impulse formation in heart of dog (Scherf, et al.), 383
- Sounds and murmurs, heart, direct recording of, from epicardial surface of exposed human heart (Magri, et al.), 449
- Korotkoff, graphic recording of (Geddes, et al.), 361
- Spatial vectorcardiogram of patients with malignant neoplasms (Golden, et al.), 751
- vectorcardiographic, electrocardiographic and, pattern associated with diffuse myocardial damage and ventricular aneurysm (Burch, et al.), 762
- Spherical dynamics of heart (myocardial tension, oxygen consumption, coronary blood flow and efficiency) (Rodbard, et al.), 348
- Splanchnic hemodynamics (II); effects of "dry" heat on circulation of man (Traks and Sancetta), 438
- Stenosis in deformable tube inhibited by outlet pressure (Rodbard and Harasawa), 544
- infundibular, isolated (Blount, et al.), 684
- pulmonary, with intact ventricular septum, use of amyl nitrite in differentiation of Fallot's tetralogy and (Vogelpoel, et al.), 803
- pulmonic, electrographic study of right ventricular hypertrophy in (Brusca, et al.), 134
- tricuspid, in association with right ventricular hypertrophy and coexistence of right-sided endocardial fibroelastosis (Abdin and Abdin), 98
- Steroid therapy, flare-up of pericarditis complicating myocardial infarction after two years of (Dressler), 501
- Stimulation, autonomic, strong, reflex venoconstrictor response to (Ross, et al.), 418
- S-T segment depression, origin of (Prinzmetal, et al.), 538
- Strain, left ventricular, pattern, vectorcardiographic analysis of, comparatively studied with ST-T change of left bundle branch block and ventricular premature beat of right ventricular origin (Nimura), 552

- ST-T change of left bundle branch block and ventricular premature beat of right ventricular origin, vectorcardiographic analysis of left ventricular strain pattern comparatively studied with (Nimura), 552
- Su-5879 (Esidrix), effects of, in congestive heart failure and hypertension: clinical evaluation (Hejtmancik, et al.), 490
- Surgical patients, determinations of serum enzymes in: value in diagnosis of complicating myocardial infarction (Weisberg and Sampson), 240
- procedures, effect of, on serum enzyme activities (Table I) (Weisberg and Sampson), 242
- Sympathectomy, dorsal, postural hypotension following, in coarctation of aorta: correction by resection of coarctation (Evans, et al.), 926
- Syncope, vasodepressor (Weissler and Warren), 786
- Systolic clicks, clinical and graphic characteristics of (Minhas and Gasul), 50
- phonocardiographic, and hemodynamic evaluation (Minhas and Gasul), 49
- early (Minhas and Gasul), 51
- mid and late (Minhas and Gasul), 54
- I-J acceleration-force values of 51 normal male subjects from ultralow-frequency pendulum ballistocardiographic system (Hollis), 730
- stroke acceleration-force values of 49 male subjects from roller ball-bearing ballistocardiographic bed, observations on (Hollis), 738
- T
- T loop in left bundle branch block (Nimura), 562
- of left ventricular strain pattern (Nimura), 553
- of ventricular beat (Nimura), 566
- Tachycardia and fibrillation, ventricular, transmembrane electrical potentials in (Hogancamp, et al.), 214
- auricular, paroxysmal, related to phases of respiration (Berry), 782
- ventricular, paroxysmal: clinical and electrocardiographic study (Herrmann, et al.), 166
- recurrent, as chief manifestation of myocarditis of unknown etiology (Herman, et al.), 829
- Tachycardias with aberrant ventricular conduction, esophageal lead in diagnosis of (Rubin, et al.), 19
- Time intervals in electrocardiogram, simple device for measuring, and for determining electrical axis of QRS complex (Keuskamp), 389
- Tissue, elastic, of aortic media, configuration of, in aortic coarctation (Heath and Edwards), 29
- Tracings, kinetocardiographic, as aid in differentiation of three-sound rhythms (Jeffries), 904
- Transbronchial technique, modified, combined catheterization of heart utilizing, percutaneous left ventricular puncture, and venous and arterial catheterization (Davila, et al.), 514
- Transposition, corrected, of great vessels, embryologic explanation for: additional description of main anatomic features of this malformation and its varieties (de la Cruz, et al.), 104
- of cavities and situs inversus, dextrocardia with (Portillo, et al.), 397
- Tricuspid incompetence, coupled hepatic pulsations in (new physical sign) (Terry), 158
- stenosis in association with right ventricular hypertrophy and coexistence of right-sided endocardial fibroelastosis (Abdin and Abdin), 98
- Tropical weather, study of influence of, on output of volume, work, and power by right and left ventricles of man at rest in bed (Burch and Hyman), 247
- Tube, deformable, stenosis in, inhibited by outlet pressure (Rodbard and Hara-sawa), 544
- Tumor, primary, of heart: report of case with myxofibroma of right ventricle (Kishimoto and Sakaibori), 769
- Turkey, etiological factors concerned with causation of heart disease in (Vural, et al.), 333
- U
- Ultralow-frequency pendulum ballistocardiographic system, systolic I-J acceleration-force values of 51 normal male subjects from (Hollis), 730
- Unipolar leads, importance of, in diagnosis of dextrocardias, levocardias, dextropositions, and dextrorotations (Portillo, et al.), 396
- morphologies, importance of, in interpretation of electrocardiogram: theoretical basis of unipolar morphologies and its correlation with vectorial analysis, with cardiac activation, and with potential variations at epicardial surface of heart (Sodi-Pallares, et al.), 590
- in bundle branch block, importance of septal activation in electrogenesis of: experimental study with total extirpation of free ventricular wall of blocked ventricle (Medrano, et al.), 126

V

- Vasculature, pulmonary, passivity of, in hypoxia (Rodbard and Harasawa), 232
- Vasodepressor syncope (Weissler and Warren), 786
- Vectorcardiogram, spatial, of patients with malignant neoplasms (Golden, et al.), 751
- Vectorcardiographic analysis of left ventricular strain pattern comparatively studied with ST-T change of left bundle branch block and ventricular premature beat of right ventricular origin (Nimura), 552
- lead system, new (Wenger and Hupka), 340
- pattern, electrocardiographic and spatial, associated with diffuse myocardial damage and ventricular aneurysm (Burch, et al.), 762
- Vectorcardiography, comparison of three different systems of (Burger, et al.), 723
- Vectorial analysis, theoretical basis of unipolar morphologies and its correlation with, with cardiac activation, and with potential variations at epicardial surface of heart; importance of unipolar morphologies in interpretation of electrocardiogram (Sodi-Pallares, et al.), 590
- Vectors, cardiac, in frontal plane, further study of (Zao, et al.), 66
- method of obtaining (Zao, et al.), 66
- Velocity and flow, blood, Pitot-static method for computation of; preliminary report (Breme and Rao), 77
- Vena cava, left superior, persistent, draining into left atrium as isolated anomaly (Davis, et al.), 616
- Venoconstrictor response, reflex, to strong autonomic stimulation (Ross, et al.), 418
- Venomotor tone, increased, further evidence in favor of, in congestive heart failure; effect of ganglionic blockade on venous pressure and blood volume (Lewis, et al.), 897
- Venous and arterial catheterization, combined catheterization of heart utilizing modified transbronchial technique, percutaneous left ventricular puncture, and (Davila, et al.), 514
- pressure and blood volume, effect of ganglionic blockade on: further evidence in favor of increased venomotor tone
- Venous pressure—Cont'd
- in congestive heart failure (Lewis, et al.), 897
- Ventricle, blocked, experimental study with total extirpation of free ventricular wall of; importance of septal activation in electrogenesis of unipolar morphologies in bundle branch block (Medrano, et al.), 126
- right, report of case with myxofibroma of; primary tumor of heart (Kishimoto and Sakaibori), 769
- Ventricles, bulboventricular loop, and great vessels, normal development of (de la Cruz, et al.), 104
- normal, anatomic characteristics of (de la Cruz, et al.), 111
- right and left, of man at rest in bed, study of influence of tropical weather on output of volume, work, and power by (Burch and Hyman), 247
- Ventricular aneurysm, electrocardiographic and spatial vectorcardiographic pattern associated with diffuse myocardial damage and (Burch, et al.), 762
- hemorrhagic pericardial effusion following myocardial infarction associated with (Greenfield and Dillon), 327
- axis, mean, in congenital heart disease: study considering natural incidence of malformations (Martins de Oliveira, et al.), 820
- conduction, aberrant, esophageal lead in diagnosis of tachycardias with (Rubin, et al.), 19
- fibrillation, abnormal electrocardiographic pattern and its relation to, (observations during clinical and experimental hypothermia) (Boba), 255
- hypertrophy, right, electrographic study of, in pulmonic stenosis (Brusca, et al.), 134
- tricuspid stenosis in association with, and coexistence of right-sided endocardial fibroelastosis (Abdin and Abdin), 98
- puncture, left, percutaneous, modified transbronchial technique, and venous and arterial catheterization, combined catheterization of heart utilizing (Davila, et al.), 514
- septal defect, recatheterization of right heart in (Downing), 669
- septum, intact, use of amyl nitrite in differentiation of Fallot's tetralogy and pulmonary stenosis with (Vogelpoel, et al.), 803
- premature beat, T loop of (Nimura), 566
- preponderance, right, direct epicardial potentials in (Wasserburger, et al.), 578

Ventricular—Cont'd

- strain pattern, left, T loop of (Nimura), 553
 - vectorcardiographic analysis of, comparatively studied with ST-T changes of left bundle branch block and ventricular premature beat of right ventricular origin (Nimura), 552
 - tachycardia and fibrillation, transmembrane electrical potentials in (Hogancamp, et al.), 214
 - paroxysmal: clinical and electrocardiographic study (Herrmann, et al.), 166
 - recurrent, as chief manifestation of myocarditis of unknown etiology (Herman et al.), 829
- Vessels, terminal, effect of pentolinium tartrate (Ansolsen) on blood pressure in, and on capillary diameter (Davis, et al.), 747

- Volume, blood, effect of ganglionic blockade on venous pressure and: further evidence in favor of increased venomotor tone in congestive heart failure (Lewis, et al.), 897

W

- Weather, tropical, study of influence of, on output of volume, work, and power by right and left ventricles of man at rest in bed (Burch and Hyman), 247

Z

- Zones of potential interference, dissociation, and fusion, calculation of (Bix and Marriott), 426
